PROFESSOR JOSHUA LEDERBERG
DEPT. OF GENETICS
STANFORD UNIV.
STANFORD, CALIF. 94305

Dear Colleague:

I am pleased to send you the enclosed set of 8 x 10 inch glossy prints of a few selected Lunar Orbiter II photographs. You will find a brief descriptive caption on the rear of each print.

The enclosed set of pictures is but a very small sampling of the photographs taken by Lunar Orbiter II this past November. High quality prints and positive and negative transparencies of any or all of the Lunar Orbiter II photographs can be obtained from the NASA Space Science Data Center, Goddard Space Flight Center, Code 601, Greenbelt, Maryland 20771. If you should be interested in getting photographs, you should ask the Data Center to send you an index of the photographs and instructions for their procurement.

Sincerely yours,

Homer E. Newell
Associate Administrator for
Space Science and Applications
